Happy to report a few people are stepping up to sue the reproductive components off Brand-X. As a way to keep our shot group tight and allow me to continue to engage them in US District Court VT, anyone who is considering going into a federal court in your area can DM me. I'll set up a ZOOM call for all of us for Monday. Consider it my way of doing an after action review on the last 4 months of course complicated by the fact we have no rulings yet. We have the first 4 lawsuits, then Anna's (which will have rulings soon I hope that will have a trickle down to me...and then you guys...), then mine.

We have plenty of new C-4 to use against GTS, Schwab, E-Trade, FINRA. I will clear the pizza boxes off the table and clean my house for the ZOOM call.
